

Dear Fathers, Brothers and Sisters,

AINACS is organizing a webinar on ***“Cyber Awareness”***.

“We live in an ever-evolving technological landscape with smart devices and millions of application with easy-to use technology at our disposal for browsing information, watching movies, shopping, processing transaction and connecting to people around the globe with social media”.

Beneath the countless utility, lies the dark side of cyber crimes which not only has resulted people losing money/data but also has taken a significant toll on the mental health of kids exposed to internet at the early years. Through Cyber threat awareness learn about the most common cyber threats lurking in the open through sensitization and understand the preventive mechanisms to safeguard against the threats.

This webinar would help the Principals and teachers to understand, what exactly is Cyber threat and its implications, how the students use/misuse the cyber, how to educate the students to safeguard themselves, etc.

At the present advanced technology-obsessed society, it is extremely important, as principals and teachers to understand the vulnerability and the havoc it does, so that the educators, can take precautions to safeguard the students.

Therefore, you are requested to register and ensure that you, alongwith your teachers attend this webinar.
